Subject: Dimock

Trish:

Humane Zia in ORC is saying the tentative date, subject to final management and HQ approval, for going live with posting the raw lab data on the website:

<http://intranet.epa.gov/r3intran/hscd/Dimock/PAN000306785.htm>

is Thursday, July 26, 2012. Can you get your text with instructions how you want it to appear to **Ex. 4 - CBI** as soon as possible? Once Charlie has the site looking the way you want it - I think you should have Humane and Kathy Hodgkiss review.

**Ex. 4 - CBI**

Please take a look at the Region 8 site:

<http://www.epa.gov/region8/superfund/wy/pavillion/docs.html>

and along with Trish's text - dummy in a link for the Raw Lab Data similar what they did. Unlike Region 8, where they have "QA Documents", "Monitoring Well Drilling Information", etc. initially, we will ONLY have the Raw Lab Data and, I suspect, add some other items later. But I want the reviewers to know what it will look like even if the link won't take them to the ftp site yet. I have to get with Carol O'Tormey and get her approval with moving forward with the method we have to getting the data on the ftp site.

Please call me if you have any questions.

Thanks,

Paul
